Combi -Stereo Microscope

Stereo

- stereoscopic view
- high field of depth
- big object fields

Micro

- high magnification
- high resolution
- big apertur

- 1:10 magnification changer
- binocular view
- digital Tv-/photo documentation
- high productivity
- low space requirements

Combi-Stereo		total magnification / objectfield - horizontal (mm)		
Objective working distance		magnification-changer	eyepiece 10x/20	1/2" camera with 0,63x Tv-adaptation & view on 17" TFT-monitor
